BOND UNIVERSITY

MASTER OF CONSTRUCTION PRACTICE

MASTER OF CONSTRUCTION PRACTICE

CRICOS 071288B

INDUSTRY OVERVIEW

Construction practice is fast becoming a key priority in the construction industry. With an increase in demand for sustainable buildings, it is important to have strong management during the planning and implementation of sustainable building projects.

Duration: 1 year full-time (3 semesters). Flexible part-time and intensive mode delivery available.
Starting: January, May, September

ENTRY REQUIREMENTS

Successful completion of any undergraduate degree, or qualifications and / or relevant professional experience deemed equivalent by the Institute's Director.

PROGRAM DESCRIPTION

Bond's Master of Construction Practice focuses on the organisation and management of project resources (people, process, products, energy, finance and space) to deliver building projects on time, within cost and of defined scope and quality.

PROGRAM STRUCTURE

This program allows you to exit after four subjects with a graduate certificate, after eight subjects with a postgraduate diploma, or complete all 12 subjects for a master's degree.

Graduate Certificate in Construction Practice (4)

- Measurement 1
- Understanding Buildings

Plus choose two from the following:

- Principles of Project Management
- Project Contract Administration
- Structures and Soil Mechanics OR Business Law
- Sustainable Building Services
- Sustainable Design

Postgraduate Diploma in Construction Practice (8)

- Measurement 1
- Understanding Buildings

Plus choose six from the following:

- Commercial Construction and Engineering
- Early Estimating and Cost Planning
- Integrated Measurement and Professional Practice
- Integrated Project
- Measurement 2
- Principles of Project Management
- Project Contract Administration
- Structures and Soil Mechanics OR Business Law
- Sustainable Building Services
- Sustainable Design

Master of Construction Practice (12)

To complete a Master of Construction Practice, you must complete all of the subjects below. Those who have completed the Postgraduate Diploma must also complete any outstanding subjects from the following list:

- Commercial Construction and Engineering
- Early Estimating and Cost Planning
- Integrated Measurement and Professional Practice
- Integrated Project
- Measurement 1
- Measurement 2
- Principles of Project Management
- Project Contract Administration
- Structures and Soil Mechanics OR Business Law
